.. New York .. Stock Market

CLOSING IS WEAK AT LOWEST PRICES

Sharp Reactions in Several Leading Issues Affect Less Active Stocks.

TRADING IS PROFESSIONAL

Smallest Hour's Business in Bonds During Year Feature of Day.

BY BROADAN WALL.

New York, December 2,-Hopefulness regarding security values received a violent check when it became known that the Canaibscribe 6 per cent ten-year notes at \$9. assitted prices at the opening here, and al-States Steel held a firm tone for the first half hour a fresh cutburst of liquidation in New Haven and New York Central carried prices of these issues down rapidly, with a hual result of a weak closing at the lowest prices of the day.

New Haven dropped to The, a new low figure, on the rumor that no dividend would be declared at the coming meeting. New York Central lost 2 points, dropping to 95% on the story that the family skeleton of the Vanderbilt control would be aired before the public.

ch the story that the family skeleton of the Vanderbilt control would be alred before the public.

American Sugar, hurt by sults, continues to come to market from investors, and broke ledow par. Such sharp reactions influenced the less active stocks, and many losses of from 182 points were scored in St. Paul, Illinois Central, Lehigh Valley, Rock Island preferred. Union Pacific lost a full point, and Steel showed its frat substantial decling for many days.

In face of this general weakness, the steensth in Reading was noticeable, the stock closing firm at 162.

After selling at R. Amalgamated Copper dropped sharply in the late dealings to 62; Conditions in the copper trade failed to show any sign of improvement.

Largely Professional.

Transactions in the market were very largely professional with some indications that efforts were being maste to unsettle speculation as much as possible. Such news as developed favored the bears.

A heavy increase in 1826 freight cars of \$1,500 on December 1 was a further evidence of business contraction. Bank exchanges also show a marked decrease in such important effica as New York, Boston and Philadelphia.

Call money rose to 6 per cent, and time

sciant effice as New York, Boston and Table John.

All money rose to 5 per cent, and time ans for short dates were in better demand I increased rate. Trading in bonds show-I some sharp recession with a voiume of miness small. In fact, between 12 and 1 clock any two-own worth changed hands, the mallest hour's business for the year.

London houses sold stocks to the extent of some 15,000 shares. Steel precominating the denings.

London houses said stocks to the extenof some L5,000 shares. Steel predominating
in the dentings.

The forthightly settlement in London is
proceeding quietly with indications that
there are no large speculative accounts open
in American. The Bank of England got
practically all of the \$1,000,000 South African
gold that arrived in London.

Fears were expressed that by the puscing
of the next New Haven dividend the bonds
would be made illegal for savings banks in
several States. It has been pointed out that
the next dividend may practically be omitted
without endangering the investment status
of these securities, as 5 per cent has been
declared and paid during the present year.

Sentiment Confused.

While sentiment has become much con-

While sentiment that become much confused by the violent drop in New Haven and New York Central, to say nothing of Sugar, the opinion appears still to prevail among commission houses that such stocks as Union Pacific, Steel and Rending are parchases on declines, or, in other words, the main market movement will probably cut away from the liquidation in special issues. New Haven louned at a premium yesterday afternoon, indicating that the stock has again become oversoif, and there was a good demand in the loin crowd for New York Central and Sugar.

New York, December 9.—The action of the tock market to-day hinged on a few issues in which particular weakness developed. These stocks were of sufficient importance to ffect the whole market, which was heavy. nervous, adropped hearly 5 points to 114, ideopped hearly 5 points to 114, which it ever sold. New York American Sugar went down 3 cir lowest in five years. Cataliel 4 points, Although the gent made fairly good tesistance unto sharp declines among promoconstituted an influence not to St. Paul, Lehigh Valley and averages early, and later the of stocks constituted an influence not to ignored. St. Paul, Lehigh Valley and el showed weeksacks early, and later the as a whole was borne down with a sharp

etraint on speculation. Henewals of call ins were made at 5 per cent and later at 5 tond prices were lower, with especial avinese in Rock Island and St. Louis and b Francisco, Total sales, par value, \$1,680.

United States 30 registered advanced 3, compared as \$2, and the upone 3s 4, on call. Parama 3s gained 3, There was no pressure to sell except at the upone 3s 4, on call. Parama 3s gained 3, New York December 3.—Money on call first togoner ent ruling rate, 5 closing, 505% for loans, fem; sixty days, 50% interpretable for some first stay days, 50% interpretable paper, 55% 50% of Cterling exchange sack at 14% for sixty days and at \$1.8520 for smand, commercial bills, \$4.80%, Bar sitt, 50% Aberican dollars, 45%, Government and otterng, ratiroal bords easy.

COTTON MARKETS.

COTTON MARKETS.

New York, December 2.—The cotton market was higher to-day on a malerate demand, which was most generally attributed to covering by recent sellers for over the government crop estimate, due Friday. So far as could be judged from ring talk, there was no particular change on sentiment as to the showing of the government's figures, but confidence in a companitively small estimate may have been increased by respects that the Secretary of Agriculture in his annual statement, had referred to the cotton production as probably ranking fourth or third in point of size.

Only one private estimate was published, placing the yield at 14.37.69 bales, including linters, which appeared to attract no special attention, and beyond further reports of rapid picking and ginning there recent no fresh development. Closing prices were 2 of 3 points off from the best under realizing, but the final tone was steady at a net advance of 44.19 points.

Liverpool was about as due, and the local market opened steady, 1 point up to 1 point down. There was very little cotton for sale around the initial flaures, and a moderate demand from scattering secrees soon worked prices higher. Covering became more active as the firmer tone developed.

There was enough realizing to check the advance and cause slight recessions from time to time, but the general tendency was input of the cotton being figures of last night, with December leading in the absence of ready sellers and an armore favorable requirements. Somewhat more favorable requirements. Somewhat more favorable reports from the Boston varn market may

Japan, 156,68 bales; to Mexico, 17,750 bales.

New Orleans, December 2.—The cotton market was quiet to-day, but very steady. There was no pressure to sell except at the opening, and then only an insignificant decline was brought about, and it was quickly recovered. The main sustaining influence seemed to be the greaving belief in small digures in the government's estimate of the croy due Friday.

The opening was quiet, 273 points down. First prices were the lowest of the day. Buying set in immediately and was met by samty offerings. The wenther map was favorable, but this fid not stimulate offerings. The advance was gradually added to until in the afternoon the trading months were \$410 points over yesterday's last quotations. The close was steady at a net gain of 748 points.

We Have a Friend

Who would like to come to Richmond to live, and is willing to invest from \$50,000.00 to \$150,000.00 in cash in some established and profitable manufacturing business with congenial associates, in which he would take part in the management, or he would take entire

If the reader knows of anything real good, we will be glad to have it brought to our attention, and same will be submitted to the party for consideration.

Written communications preferred!

Three things not desired:

First. A business on its last legs, which the owners want to unload.

Second. A land proposition with villa sites and corner lots to sell (no matter how meritorious).

Third. Some splendid patent which, if developed, would yield millions.

THREE VACANCIES TO PILL Wilson Is Considering Appointments to Com-

Wilson Is Considering Appointments to Commerce Commission.

[Special to The Times-Dispatch.]

Washington, December 2.—President Wilson will have the appointment of three Interstate Commerce Commissioners during the present month, when the term of Judson C. Clements, of Georgia, expires, Charles A. Prouty, of Vermont, has resigned, and the recent death of Commissioner Marble makes the third vacancy on the commission. The President is not expected to take up the question of appointments until after the passage of the currency bill. In official circles there is a belief that Judge Clements will be named to succeed himself. The President, it is stated, has before him many names from which to select, Among the prominent ones from which selection will be made an official said to-day that the available men might be named in this order; E. O. Ives, of Rowton; Martin Decker and Commissioner Mathy, of New York commission; Harrison Mayfield, of the Texas Rallway Commissioner Mathy, of New York commission; Commission; Account. Mr. Decker was for a number of years an Important official of the Interstate Com-merce Commission here.

Favored by Delegates if Highways Are Planned Upon Comprehensive System.

Philadelphia, December 9.—Federal aid for highways throughout the United States, unless planned upon some comprehensive system, was not favored by those who to-day addressed the tentannual convention of the American Road Builders' Association, in session here. Several speakers declared the numerous bills now before Congress, providing for Fèderal aid for good roads are designed more to open "pork barrels" than to give the States good, S. Percy Hooker, State Superinten.

tion forces from all over the country are gathered in Washington to-night. Shipments Into Central and prepared for a mighty demonstration to-morrow before the National Capitol. More than 2,000 men and women, representing the Anti-Saloon League of

county commissioners and delegates from good reads associations, universities and colleges.

Every effort possible will be made to make the stay of the delegates in this city a pleasant one, as well as a stay that will prove beneficial to the good roads movement. Automobile trips will be made about the city, and women attending the congress will be taken on an auto tour of the shopping district. The delegates will be taken on an inspection trip by automobile covering typical road and pavement construction work in Philadelphia.

The fifth annual good roads exhibit, part of which is located in the convention hall and part in a tent, is the most complete exhibit of its kind ever held. The tent exhibit shows good roads machinery in operation under actual working conditions. Exhibits are made by the United States government, several States, cities, colleges and engineering institutions. Among the States and cities exhibiting are Massachusetts, New York, Rhode Island, New Jersey, Pennsylvania, North Carofina, New York City, Philadelphia, Boston and Chicago.

Many speakers, all of them experts on road construction, will address the congress from day to day.

Men and Women Will March in Separate Bodies to Capitol Bearing Petitions.

of intexicating flquors for beverage purposes, but empowering Congress to purposes, but empowering Congress to purpose the manufacture, sale, importation and transportation of intexicating flquors for sacramental, medicinal and similar purposes.

Washington, December 9.-Prohibi- Government Seeking to Stop South American Countries.

[Special to The Times-Dispatch.] New York, December 9 .- Government America and the Woman's Christian agents, it was learned to-day, have been in the city for the past fortnight conducting a still and what is conhibition be effected by constitutional amendment.

barries" than to give the States good permanent highways.

S. Percy Hooker, State Superintendent of Highways of New Hampshire, said he did not favor Federal aid under present proposed schemes. If Pederal aid is to come, he said, there should be a Federal department of roads, and cach State should have a similar department.

Among other speakers to-day was Governor Tenes, who said that roads should not be built on the word of idealists or theorists, but should be constructed by practical men.

Every State in the Union and all Canadian Provinces sent three delegates appointed by the respective Governors. There are two or more delegates representing scores of boards of county commissioners and delegates from good roads associations, universities and colleges.

Every effort possible will be made
